Policy Document on Environment and Energy Usage

The Environment and Energy usage Policy of Indira Institute of Pharmacy, Sadavali is to manage energy in such a systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage.

The NNS and UBA units of the institute, platforms devoted to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes to save energy and to protect the environment.

Policies:

- To assess our energy usage and measure for conservation.
- To reduce local air pollution emissions using environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.
- To installed solar water heater for boys and girls hostels.
- To install LED lights in the complete campus to save energy.
- To develop systematic waste management mechanism through signed MOUs.
- To undertake more innovative ideas for water conservation apart from rain water harvesting and bore well recharge system.
